About Us

Better By Design, LLC is strategically located near two major river systems (Missouri & Mississippi) and has served as a key contractor to the U.S. Army Corps of Engineers for almost a decade. BBD has responded to emergency levee breaches, filled scour holes, repaired failed levees, built new levees, constructed wetlands, and placed hundreds of thousands of tons of riprap for the government's continual flood fight.

The company is currently rebuilding three campgrounds, finishing a four-mile roadbed ahead of the Roy Blunt Reservoir Project, and remediating two Superfund sites. The company owns a fleet of dozers, track hoes, haul trucks, skid steers, etc. as well as drones and GPS survey equipment. We are confident in serving as both a self-sufficient general contractor and as a key subcontractor on larger projects. We also have experience in design-build work and have recently completed design-build projects for the United States Army Corps of Engineers.

Bonding

Single	\$9.9 Million
Aggregate	\$25 Million

Identifier Codes

Cage Code: 5H8UO

Certifications

8(a) Graduation Date: 10-07-2025
HUBZone Certified
Economically Disadvantaged
Woman Owned Small Business
MoDOT – DBE Certified
Missouri OA – WBE Certified

Area of Operation

Why Us?

Better By Design, LLC is an award-winning general contractor that self-performs most of its work. The company is currently enrolled in the U.S. Small Business Administration's 8(a), HUBZone, and Economically Disadvantaged Woman-Owned Small Business programs and is a great choice for agencies when considering small business participants.
